## **V. Post Challenges**

### **Overview**

Our primary challenges for the 2021-2022 fiscal year are a combination of challenges that are a consequence of the Covid-19 outbreak, and other concerns we've discussed for years. Our # 1 priority is to *Restore Our Events and Their Related Revenue Streams*. Other challenge on our priority list that need to be addressed are: we must continue to *Fill Post Leadership Positions*, to *Sustain and Grow Membership* and continue to *Improve Internal Communications*. A brief description of each challenge is listed below.

### **Restore Our Events and Their Related Revenue Streams**

Our cash flow to maintain Post Operations is about \$6,000 each month. To continue our programs an additional \$ 2,800 is contributed each month by Charities, Inc. The majority of money to support Post Operations is raised through our schedule of events; bingo, dances, fish fry's and euchre. To combat the Covid-19 outbreak, the Post was closed and all of our events were cancelled. This caused our revenue generation to come to a screeching halt. A primary assumption is that when the Post reopens, to restore our revenue streams, we must reestablish our schedule of events.

### **Fill Post Leadership Positions**

Members willing to take on leadership positions within the Post continue to decline. Since 2019, 3 major committees have not had identified leaders. The impacts this is having on the Post are 1) we are losing visibility within the community, 2) participation in our programs is declining, and 3) dedicated Post members are dealing with "burn out" because they are picking up duties and responsibilities, belonging to committees with unfilled leadership positions. If we can't fulfil our mission as an American Legion organization the question becomes why are we here?

### **Sustain and Grow Membership**

Membership is at the heart of who we are and what we can do. We have made membership quota since 2007, that's fifteen (15) consecutive years. In 2020, we finally exceeded our all-time high membership number. In 2021, we increased our all-time high again. We will keep our eye on our quota attainment throughout the year and strive to make our 2022 quota before November 11<sup>th</sup>.

Our challenge is to continue doing things that raise our visibility within the community (schools, Chamber of Commerce, etc.), allowing us to recruit new members. A primary goal is to exceed our all-time membership level each and every year.

### **Improve Internal Communications**

Our internal communications (newsletter, Facebook, websites, e-mails, etc.) took a hit in the last Program Year. We paid little or no attention to communicating with our membership, and we heard virtually nothing from them. This is a recipe for failure. We have to do better! We can start by getting our Newsletter out on a regular basis. However, it has to provide value to our membership. We have to provide an edited document that communicates what we're doing and why. We must remain dedicated to keeping our members informed so they know what is going on in our Post and what the Post and our membership are doing in the community.

## **VI. Financial Plan**

### **Overview**

The purpose of this section is to define the Post 318 Financial Plan for fiscal year 2022-2023, which runs from July 1, 2022 through June 30, 2023. Its intent is to ensure that our membership clearly understands our projected expense, income, and cash flow positions.

### **Financial Summary**

The following summarizes our financial projections for fiscal years 2022-2023. The projection is we will run a deficit of \$ 9,323. Unfortunately, our reality is the expense numbers will materialize. To obtain the revenue numbers will require a significant amount of work. Failure to generate revenues close to our projected expenses will increase our deficit!

<b>2022-2023 Expense Projections</b>	=	<b>\$ 95,237</b>
<b>2022-2023 Income Projections</b>	=	<b>\$ 85,914</b>
<b>Deficit</b>		<b>\$ 9,323</b>

### **Operating Budget (See Expense Spreadsheet for Details)**

The Post 318 operating expenses are incurred to fund the day-to-day operations of the Post. These costs are made up of both “fixed” and “variable” expenses. There are some discretionary expenses within the operating budget, but most of these discretionary expenses are directly tied to revenue production. Therefore, if we don’t incur the expense, we can’t generate associated income. American Legion Post 318 Charities, Inc. will continue to restore all “*Program*” and “*Charitable Giving*” they historically have funded. However, we don’t expect that CI funding will be fully restored. Therefore, some of these expenses will either have to be reduced, or the Post will have to contribute funds to maintain spending levels.

### **Revenue Projections (See Revenue Projection Summary for Details)**

For business plan purposes, Post 318 income projections have been broken down into two (2) categories (listed below). Going forward, as we gain experience in identifying our income streams, we may add or merge categories.

**Income Projections** – Post 318 income projections account for revenue generated from services we provide and fund-raising projects we undertake. This category includes revenue from; hall rentals, fundraisers, bingo, donations and other such sources.

**Earnings Projections** – Post 318 earnings projections account for revenues generated by our investments and cash reserves. This category includes income from; CD’s, savings accounts and other investments. Currently, our only investment that will generate earnings are our savings account, and a CD we hold.
